Novi, MI 48375

To Whom It May Concern:

This letter is to confirm our support of Sensible Business Consulting Group's (SBCG) Youth Development Programs. We are very pleased with the strategic and purposeful way SBCG integrates topics of virtue into practical real life experiences. The team under the leadership of Mr. Kimbrough and Mr. Johnson bring a lot of excitement to the subject matter and keep our students motivated and engaged.

As a result of a successful two-year relationship, SBCG is currently facilitating a 10-week development seminar that complements the goals and objectives of our Project Success Program. "Developing the Character of a Champion," the first subset of seminars, focused on leadership, conflict resolution, positive assertion and leading others. The second, "Ready, Set, Success," trains the young men in interviewing techniques, resume writing, creating portfolios and tidbits on how to effectively complete an application. The instructors, training programs and training materials are on a level of excellence that is truly preparing participants for success after the completion of the program.

We look forward to building a long lasting partnership with the team at SBCG as we work together to prepare young men to become responsible, contributing men in their communities, homes and workplaces. I would love to share more with you if you need additional information, I can be reached at president@100blackmendetroit.org.

Regards,

Anton T. Chastang
President, 100 Black Men of Greater Detroit, Inc.
