November 23, 2011

Dear Sirs,

As Principal of Chandler Park Academy High, I tasked Sensible Business Consulting Group with developing a series of workshops for school students aimed at preparing our students to meet the expectations associated with entering the next grade. Our goal was to quickly equip students with soft skills and the tools necessary to promote job and college readiness. The team at SBCG responded by developing workshops for our tenth and eleventh graders who were promoted to the eleventh and twelfth grades, respectively.

The goal of the daily discussions was to equip our students with tools to plan for life after High School. The activities prepared our students to focus on making the most out of their remaining high school credits while looking ahead to the future. Students were taught effective communication skills, interviewing techniques, and how to put together a powerful portfolio and network for success. At the conclusion of each of the workshops, they provided us with a summary of the data that they collected from the pre and post assessments. Our students showed remarkable improvement in just about every area.

The SBCG facilitated workshops were lively and the students were easily able to relate to the subjects that were taught. The staff at SBCG was knowledgeable and used fun ways to connect with our children. Our children latched on to the concepts, used the information to communicate during college fairs and interviews. The training allowed for some of our students to easily find afterschool employment. Our kids had nothing but positive things to say about their experience and we are looking forward to bringing Sensible Business Consulting Group back.

Sincerely,

Mrs. Diane Tinsley-Fisher  
Principal
