May 22, 2015

To Whom It May Concern:

On behalf of the Detroit African American Premedical Planning Committee, we would like to thank Dr. Joseph E. Kimbrough of Sensible Business Consulting Group for speaking at the Pre-Medical Planning Seminar on December 12, 2014.

His blend of humor, life experiences, observations and message was perfect for our audience of high school, college, and medical school students. His passionate style engaged the audience and he was incredibly informative. He related directly with the audience through shared experiences and provided great advice on the cost and strategies of getting through medical school successfully.

Feedback from physicians, medical school department heads and directors from both Wayne State University and Detroit Medical Center was extremely positive. Many individuals commented that he was one of the best speakers they had heard.

I can highly recommend Dr. Joseph E. Kimbrough as a speaker and hope I have the opportunity to hear him again in the future.

Sincerely,

Deborah Holland, MA, LPC
